1994 STATE TRAINING INVENTORY (STI)
(for the 1993 school year)

**LIST OF TRAINING INSTITUTIONS
AND
TRAINING PROGRAMS BY INSTITUTION**

for the

**METRO NORTH CONSORTIUM
SERVICE DELIVERY AREA**

[v. 8]

13 JA

MASSACHUSETTS STATE TRAINING INVENTORY STI

The **State Training Inventory (STI)** is a computerized package that allows users to identify training programs and providers at the secondary and post-secondary levels, by:

- **Geographic area**, including county, service delivery area (SDA), metropolitan statistical area (MSA), single state, or multi-state area (including Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont).
- **Type of institution**, including secondary and adult vocational or technical schools, community or technical colleges, four-year colleges or universities, proprietary schools, JTPA service providers, hospital-based schools, and the Job Corps.
- **Training title and code**, as listed in the Classification of Instructional Programs (CIP) manual, produced by the National Center for Educational Statistics.

The STI contains several features useful to employment and training professionals. These include different *geographic coding* of all schools in the database, which allows users to specify the area they want (by state, MSA, SDA, or county) and obtain a listing of all schools/training institutions located there. Users may also examine a specific *training code* and obtain a listing of the providers offering such training. Users may look at a specific *school/training institution* and obtain the address, admissions telephone number, and a complete listing of the training offered at that school.

The STI was developed by the Massachusetts Occupational Information Coordinating Committee (MOICC) in cooperation with the National Occupational Information Coordinating Committee (NOICC) and the Massachusetts Department of Employment and Training (DET). The database is updated annually and is available to users in print (by SDA) or computerized format.

Please note that inclusion of any school or training institution does not constitute an endorsement of the programs being offered and, while we sought to provide accurate and complete information, errors and omissions may have occurred. English as a Second Language (ESL) is listed using CIP code 32.1099 (Basic Skills, Other) because it does not have its own CIP code.

MOICC can provide a demonstration of the STI and arrange for copies of the software and support materials. For additional information on the STI, contact:

Massachusetts Occupational Information Coordinating Committee
19 Staniford Street, 2nd Floor
Boston, MA 02114

Telephone: (617) 626-5718

This book contains school listings for the METRO NORTH (SDA). Communities in this area include:

Arlington, Belmont, Burlington, Cambridge, Chelsea, Everett, Malden, Medford, Melrose, North Reading, Reading, Revere, Somerville, Stoneham, Wakefield, Watertown, Wilmington, Winchester, Winthrop, and Woburn.

Massachusetts Occupational Information Coordinating Committee

1994 STATE TRAINING INVENTORY (STI)
(for the 1993 school year)

**LIST OF TRAINING INSTITUTIONS
AND
TRAINING PROGRAMS BY INSTITUTION**

for the

**METRO SOUTHWEST CONSORTIUM
SERVICE DELIVERY AREA**

[v. 9]

MASSACHUSETTS STATE TRAINING INVENTORY
STI

The **State Training Inventory (STI)** is a computerized package that allows users to identify training programs and providers at the secondary and post-secondary levels, by:

- **Geographic area**, including county, service delivery area (SDA), metropolitan statistical area (MSA), single state, or multi-state area (including Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont).
- **Type of institution**, including secondary and adult vocational or technical schools, community or technical colleges, four-year colleges or universities, proprietary schools, JTPA service providers, hospital-based schools, and the Job Corps.
- **Training title and code**, as listed in the Classification of Instructional Programs (CIP) manual, produced by the National Center for Educational Statistics.

The STI contains several features useful to employment and training professionals. These include different *geographic coding* of all schools in the database, which allows users to specify the area they want (by state, MSA, SDA, or county) and obtain a listing of all schools/training institutions located there. Users may also examine a specific *training code* and obtain a listing of the providers offering such training. Users may look at a specific *school/training institution* and obtain the address, admissions telephone number, and a complete listing of the training offered at that school.

The STI was developed by the Massachusetts Occupational Information Coordinating Committee (MOICC) in cooperation with the National Occupational Information Coordinating Committee (NOICC) and the Massachusetts Department of Employment and Training (DET). The database is updated annually and is available to users in print (by SDA) or computerized format.

Please note that inclusion of any school or training institution does not constitute an endorsement of the programs being offered and, while we sought to provide accurate and complete information, errors and omissions may have occurred. English as a Second Language (ESL) is listed using CIP code 32.1099 (Basic Skills, Other) because it does not have its own CIP code.

MOICC can provide a demonstration of the STI and arrange for copies of the software and support materials. For additional information on the STI, contact:

Massachusetts Occupational Information Coordinating Committee
19 Staniford Street, 2nd Floor
Boston, MA 02114

Telephone: (617) 626-5718

This book includes school listings for the METRO SOUTH/WEST (SDA). Communities in this area include:

Acton, Ashland, Bedford, Bellingham, Boxborough, Brookline, Carlisle, Canton, Concord, Dedham, Dover, Framingham, Franklin, Foxborough, Holliston, Hopkington, Hudson, Lexington, Lincoln, Littleton, Marlborough, Maynard, Medfield, Medway, Millis, Natick, Needham, Newton, Norfolk, Norwood, Plainville, Sharon, Sherborn, Southborough, Stow, Sudbury, Walpole, Waltham, Wayland, Wellesley, Weston, Westwood, and Wrentham.

MASSACHUSETTS STATE TRAINING INVENTORY
STI

The **State Training Inventory (STI)** is a computerized package that allows users to identify training programs and providers at the secondary and post-secondary levels, by:

- **Geographic area**, including county, service delivery area (SDA), metropolitan statistical area (MSA), single state, or multi-state area (including Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont).
- **Type of institution**, including secondary and adult vocational or technical schools, community or technical colleges, four-year colleges or universities, proprietary schools, JTPA service providers, hospital-based schools, and the Job Corps.
- **Training title and code**, as listed in the Classification of Instructional Programs (CIP) manual, produced by the National Center for Educational Statistics.

The STI contains several features useful to employment and training professionals. These include different *geographic coding* of all schools in the database, which allows users to specify the area they want (by state, MSA, SDA, or county) and obtain a listing of all schools/training institutions located there. Users may also examine a specific *training code* and obtain a listing of the providers offering such training. Users may look at a specific *school/training institution* and obtain the address, admissions telephone number, and a complete listing of the training offered at that school.

The STI was developed by the Massachusetts Occupational Information Coordinating Committee (MOICC) in cooperation with the National Occupational Information Coordinating Committee (NOICC) and the Massachusetts Department of Employment and Training (DET). The database is updated annually and is available to users in print (by SDA) or computerized format.

Please note that inclusion of any school or training institution does not constitute an endorsement of the programs being offered and, while we sought to provide accurate and complete information, errors and omissions may have occurred. English as a Second Language (ESL) is listed using CIP code 32.1099 (Basic Skills, Other) because it does not have its own CIP code.

MOICC can provide a demonstration of the STI and arrange for copies of the software and support materials. For additional information on the STI, contact:

Massachusetts Occupational Information Coordinating Committee
19 Staniford Street, 2nd Floor
Boston, MA 02114

Telephone: (617) 626-5718

This book contains school listings for the NEW BEDFORD (SDA). Communities in this area include:

Acushnet, Cheshire, Dalton, Hinsdale, Lanesborough, Lee, Lenox, Pittsfield, Richmond, and Stockbridge.

1994 STATE TRAINING INVENTORY (STI)
(for the 1993 school year)

**LIST OF TRAINING INSTITUTIONS
AND
TRAINING PROGRAMS BY INSTITUTION**

for the

**NORTHERN MIDDLESEX CONSORTIUM
SERVICE DELIVERY AREA**

[v, 11]

MASSACHUSETTS STATE TRAINING INVENTORY STI

The **State Training Inventory (STI)** is a computerized package that allows users to identify training programs and providers at the secondary and post-secondary levels, by:

- **Geographic area**, including county, service delivery area (SDA), metropolitan statistical area (MSA), single state, or multi-state area (including Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont).
- **Type of institution**, including secondary and adult vocational or technical schools, community or technical colleges, four-year colleges or universities, proprietary schools, JTPA service providers, hospital-based schools, and the Job Corps.
- **Training title and code**, as listed in the Classification of Instructional Programs (CIP) manual, produced by the National Center for Educational Statistics.

The STI contains several features useful to employment and training professionals. These include different *geographic coding* of all schools in the database, which allows users to specify the area they want (by state, MSA, SDA, or county) and obtain a listing of all schools/training institutions located there. Users may also examine a specific *training code* and obtain a listing of the providers offering such training. Users may look at a specific *school/training institution* and obtain the address, admissions telephone number, and a complete listing of the training offered at that school.

The STI was developed by the Massachusetts Occupational Information Coordinating Committee (MOICC) in cooperation with the National Occupational Information Coordinating Committee (NOICC) and the Massachusetts Department of Employment and Training (DET). The database is updated annually and is available to users in print (by SDA) or computerized format.

Please note that inclusion of any school or training institution does not constitute an endorsement of the programs being offered and, while we sought to provide accurate and complete information, errors and omissions may have occurred. English as a Second Language (ESL) is listed using CIP code 32.1099 (Basic Skills, Other) because it does not have its own CIP code.

MOICC can provide a demonstration of the STI and arrange for copies of the software and support materials. For additional information on the STI, contact:

Massachusetts Occupational Information Coordinating Committee
19 Staniford Street, 2nd Floor
Boston, MA 02114

Telephone: (617) 626-5718

This book includes school listings for the NORTHERN MIDDLESEX (SDA). Communities in this area include:

Billerica, Chelmsford, Dracut, Dunstable, Lowell, Tewksbury, Tyngsborough, and Westford.

AND
TRAINING PROGRAMS BY INSTITUTION**

for the

**NORTHERN WORCESTER CONSORTIUM
SERVICE DELIVERY AREA**

[v. 12]

MASSACHUSETTS STATE TRAINING INVENTORY STI

The **State Training Inventory (STI)** is a computerized package that allows users to identify training programs and providers at the secondary and post-secondary levels, by:

- **Geographic area**, including county, service delivery area (SDA), metropolitan statistical area (MSA), single state, or multi-state area (including Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont).
- **Type of institution**, including secondary and adult vocational or technical schools, community or technical colleges, four-year colleges or universities, proprietary schools, JTPA service providers, hospital-based schools, and the Job Corps.
- **Training title and code**, as listed in the Classification of Instructional Programs (CIP) manual, produced by the National Center for Educational Statistics.

The STI contains several features useful to employment and training professionals. These include different *geographic coding* of all schools in the database, which allows users to specify the area they want (by state, MSA, SDA, or county) and obtain a listing of all schools/training institutions located there. Users may also examine a specific *training code* and obtain a listing of the providers offering such training. Users may look at a specific *school/training institution* and obtain the address, admissions telephone number, and a complete listing of the training offered at that school.

The STI was developed by the Massachusetts Occupational Information Coordinating Committee (MOICC) in cooperation with the National Occupational Information Coordinating Committee (NOICC) and the Massachusetts Department of Employment and Training (DET). The database is updated annually and is available to users in print (by SDA) or computerized format.

Please note that inclusion of any school or training institution does not constitute an endorsement of the programs being offered and, while we sought to provide accurate and complete information, errors and omissions may have occurred. English as a Second Language (ESL) is listed using CIP code 32.1099 (Basic Skills, Other) because it does not have its own CIP code.

MOICC can provide a demonstration of the STI and arrange for copies of the software and support materials. For additional information on the STI, contact:

Massachusetts Occupational Information Coordinating Committee
19 Staniford Street, 2nd Floor
Boston, MA 02114

Telephone: (617) 626-5718

This book contains school listings for the NORTHERN WORCESTER (SDA). Communities in this area include:

Ashburnham, Ashby, Ayer, Barre, Berlin, Bolton, Clinton, Fitchburg, Gardner, Groton, Harvard, Hubbardston, Lancaster, Leominster, Lunenburg, Pepperell, Princeton, Shirley, Sterling, Templeton, Townsend, Winchendon, and Westminster.

[v. 14]

MASSACHUSETTS STATE TRAINING INVENTORY STI

The **State Training Inventory (STI)** is a computerized package that allows users to identify training programs and providers at the secondary and post-secondary levels, by:

- **Geographic area**, including county, service delivery area (SDA), metropolitan statistical area (MSA), single state, or multi-state area (including Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont).
- **Type of institution**, including secondary and adult vocational or technical schools, community or technical colleges, four-year colleges or universities, proprietary schools, JTPA service providers, hospital-based schools, and the Job Corps.
- **Training title and code**, as listed in the Classification of Instructional Programs (CIP) manual, produced by the National Center for Educational Statistics.

The STI contains several features useful to employment and training professionals. These include different *geographic coding* of all schools in the database, which allows users to specify the area they want (by state, MSA, SDA, or county) and obtain a listing of all schools/training institutions located there. Users may also examine a specific *training code* and obtain a listing of the providers offering such training. Users may look at a specific *school/training institution* and obtain the address, admissions telephone number, and a complete listing of the training offered at that school.

The STI was developed by the Massachusetts Occupational Information Coordinating Committee (MOICC) in cooperation with the National Occupational Information Coordinating Committee (NOICC) and the Massachusetts Department of Employment and Training (DET). The database is updated annually and is available to users in print (by SDA) or computerized format.

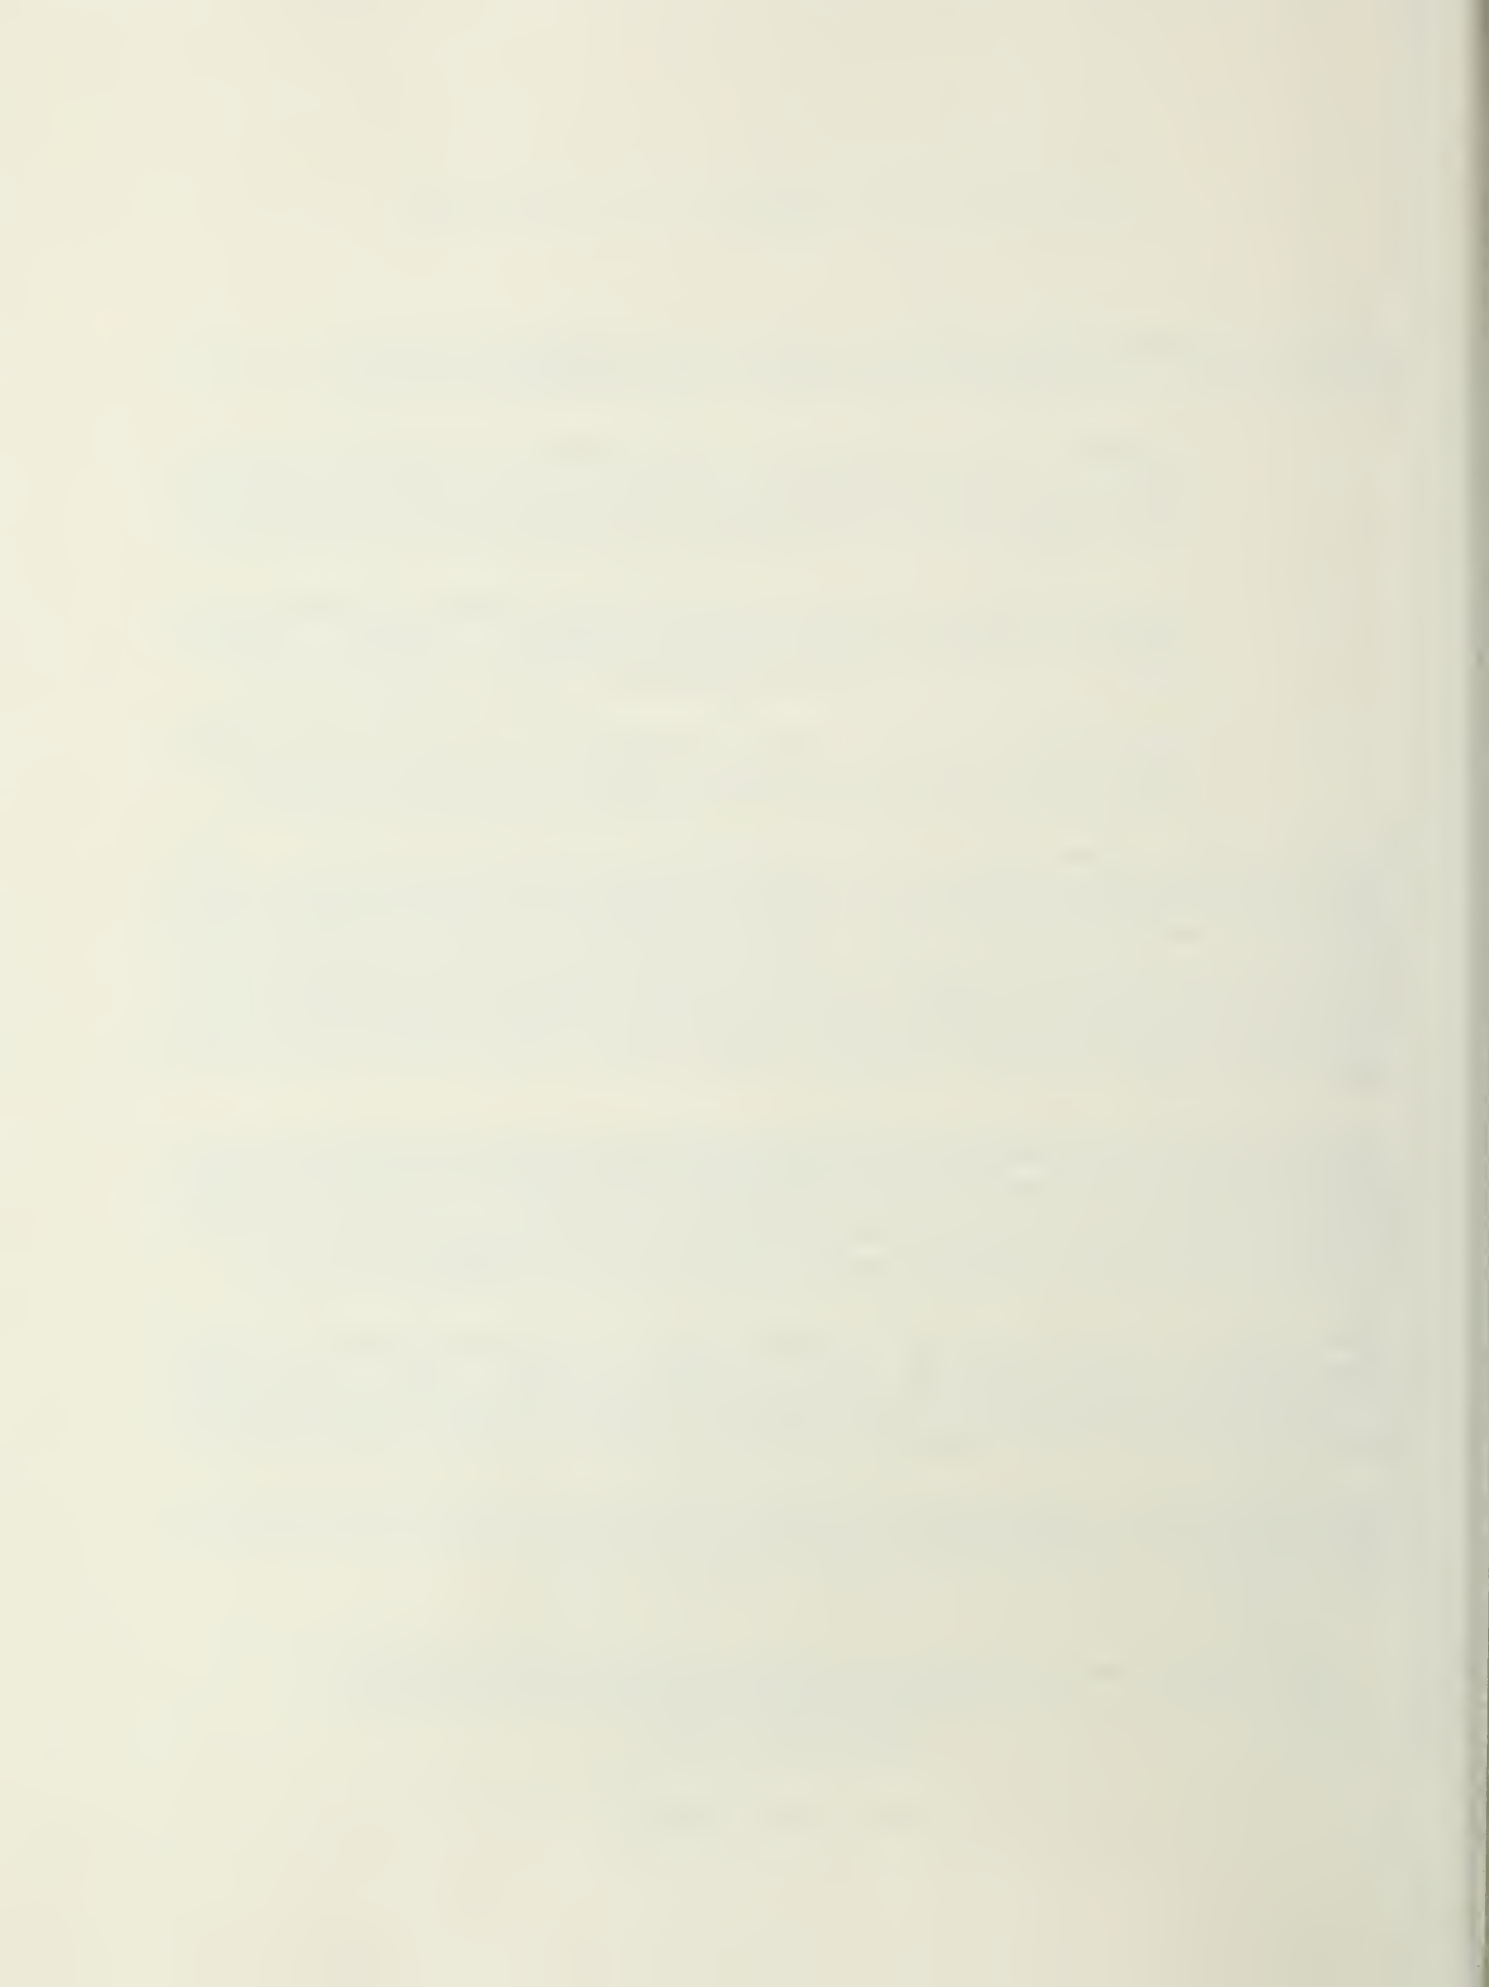

Please note that inclusion of any school or training institution does not constitute an endorsement of the programs being offered and, while we sought to provide accurate and complete information, errors and omissions may have occurred. English as a Second Language (ESL) is listed using CIP code 32.1099 (Basic Skills, Other) because it does not have its own CIP code.

MOICC can provide a demonstration of the STI and arrange for copies of the software and support materials. For additional information on the STI, contact:

Massachusetts Occupational Information Coordinating Committee

19 Staniford Street, 2nd Floor
Boston, MA 02114

Telephone: (617) 626-5718

This book includes school listings for the SOUTHERN ESSEX NORTH SHORE (SDA).
Communities in this area include:

Beverly, Danvers, Essex, Gloucester, Hamilton, Ipswich, Lynn, Lynnfield, Manchester, Marblehead, Middleton, Nahant, Peabody, Rockport, Salem, Saugus, Swampscott, Topsfield, and Wenham.

SERVICE DELIVERY AREA**

[v. 15]

MASSACHUSETTS STATE TRAINING INVENTORY
STI

The **State Training Inventory (STI)** is a computerized package that allows users to identify training programs and providers at the secondary and post-secondary levels, by:

- **Geographic area**, including county, service delivery area (SDA), metropolitan statistical area (MSA), single state, or multi-state area (including Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont).
- **Type of institution**, including secondary and adult vocational or technical schools, community or technical colleges, four-year colleges or universities, proprietary schools, JTPA service providers, hospital-based schools, and the Job Corps.
- **Training title and code**, as listed in the Classification of Instructional Programs (CIP) manual, produced by the National Center for Educational Statistics.

The STI contains several features useful to employment and training professionals. These include different *geographic coding* of all schools in the database, which allows users to specify the area they want (by state, MSA, SDA, or county) and obtain a listing of all schools/training institutions located there. Users may also examine a specific *training code* and obtain a listing of the providers offering such training. Users may look at a specific *school/training institution* and obtain the address, admissions telephone number, and a complete listing of the training offered at that school.

The STI was developed by the Massachusetts Occupational Information Coordinating Committee (MOICC) in cooperation with the National Occupational Information Coordinating Committee (NOICC) and the Massachusetts Department of Employment and Training (DET). The database is updated annually and is available to users in print (by SDA) or computerized format.

Please note that inclusion of any school or training institution does not constitute an endorsement of the programs being offered and, while we sought to provide accurate and complete information, errors and omissions may have occurred. English as a Second Language (ESL) is listed using CIP code 32.1099 (Basic Skills, Other) because it does not have its own CIP code.

MOICC can provide a demonstration of the STI and arrange for copies of the software and support materials. For additional information on the STI, contact:

Massachusetts Occupational Information Coordinating Committee
19 Staniford Street, 2nd Floor
Boston, MA 02114

Telephone: (617) 626-5718

This book contains school listings for the SOUTHERN WORCESTER (SDA). Communities in this area include:
